

Launch Pageant from the folder putty in the start menu

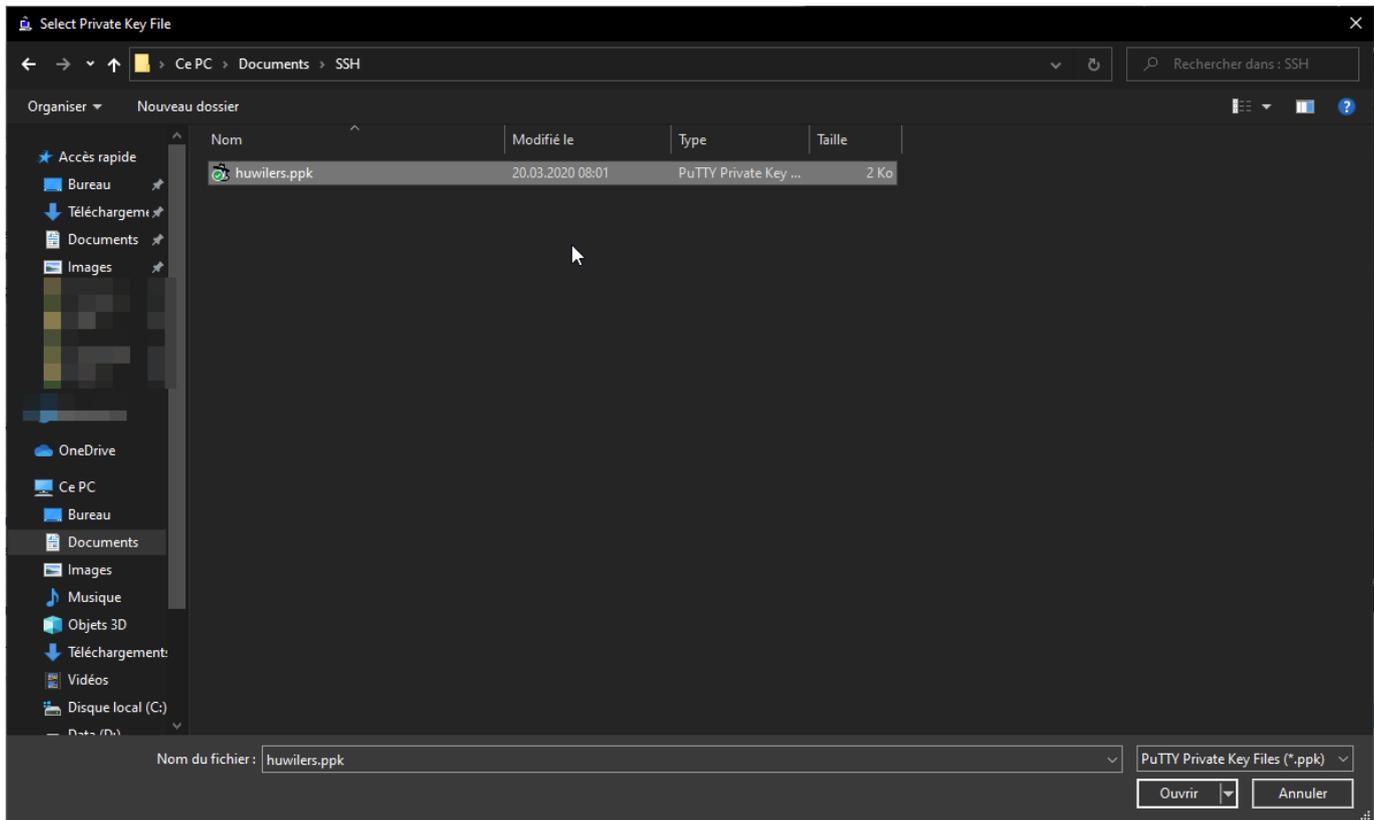

The first time nothing append it's normal ! Just go to the right bottom of you screen. You will see the pagent icon

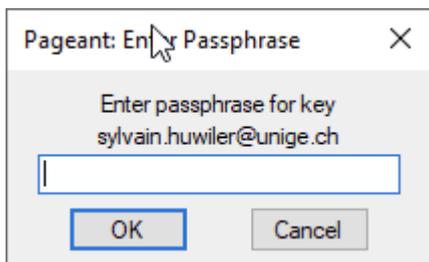

Do a right click on the icon

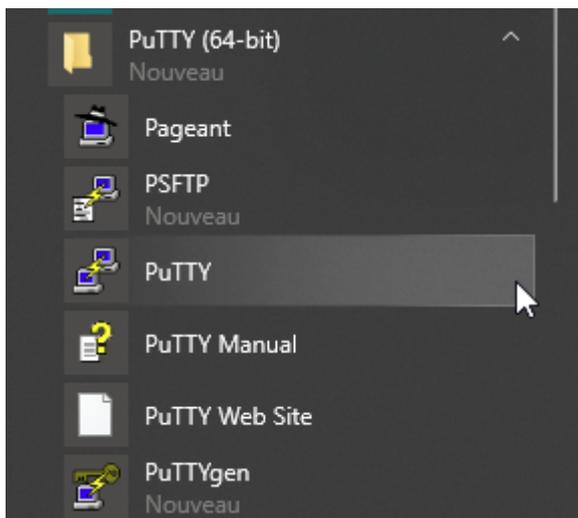

And select Add Key

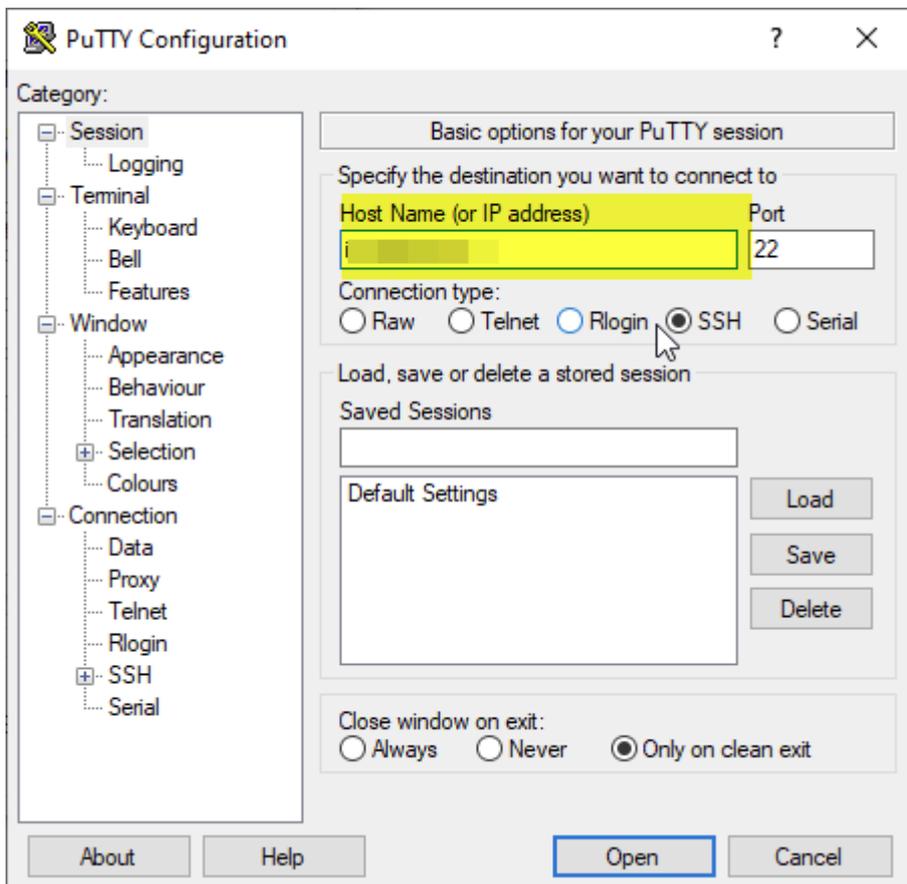

Select you private key (.ppk file)

When it's done open putty

Enter the IP of the server :

Use username root

You will be directly connected to the VM

```
login as: root
