Documentation CI

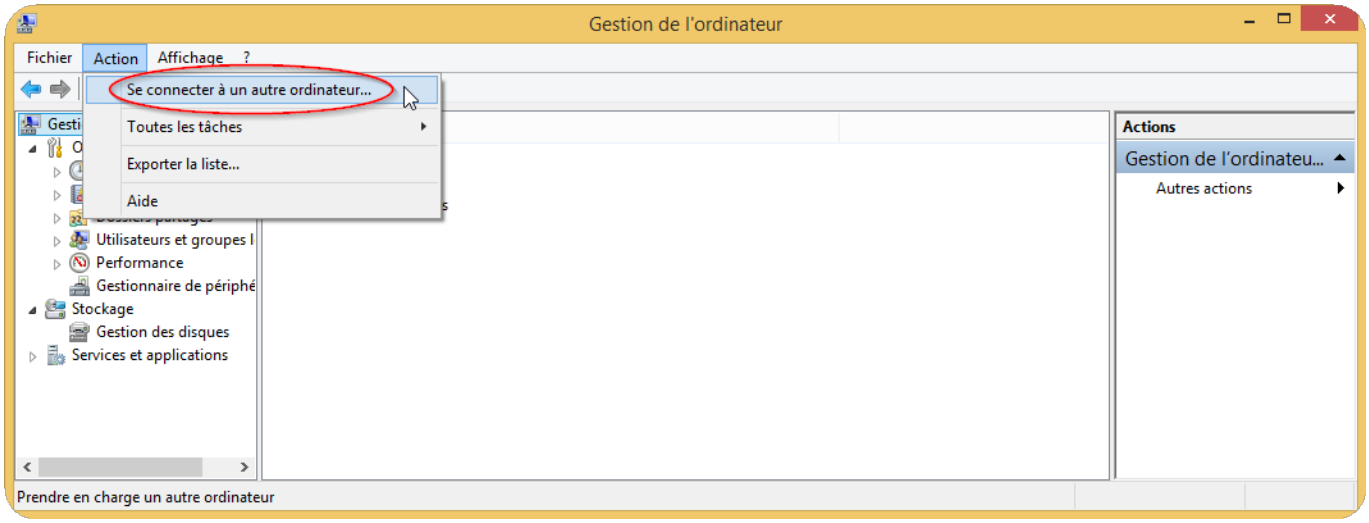

Créer un partage CIFS depuis la console microsoft

Pour pouvoir créer un partage, il faut être administrateur de l'EVS où se trouve le filesystem sur lequel on veut ajouter un partage.

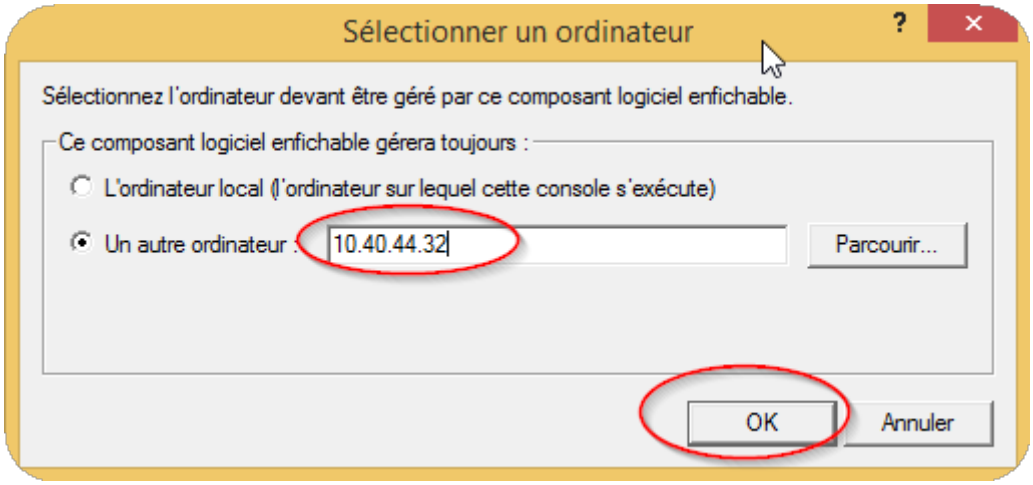

Lancement de la console microsoft

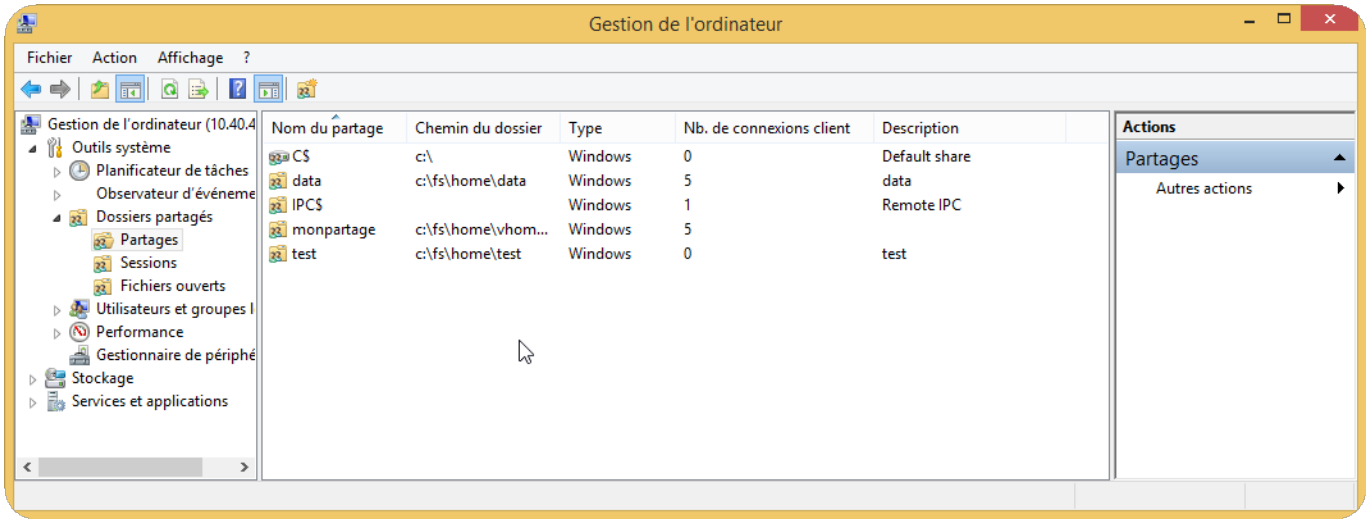

Connection à un ordinateur distant

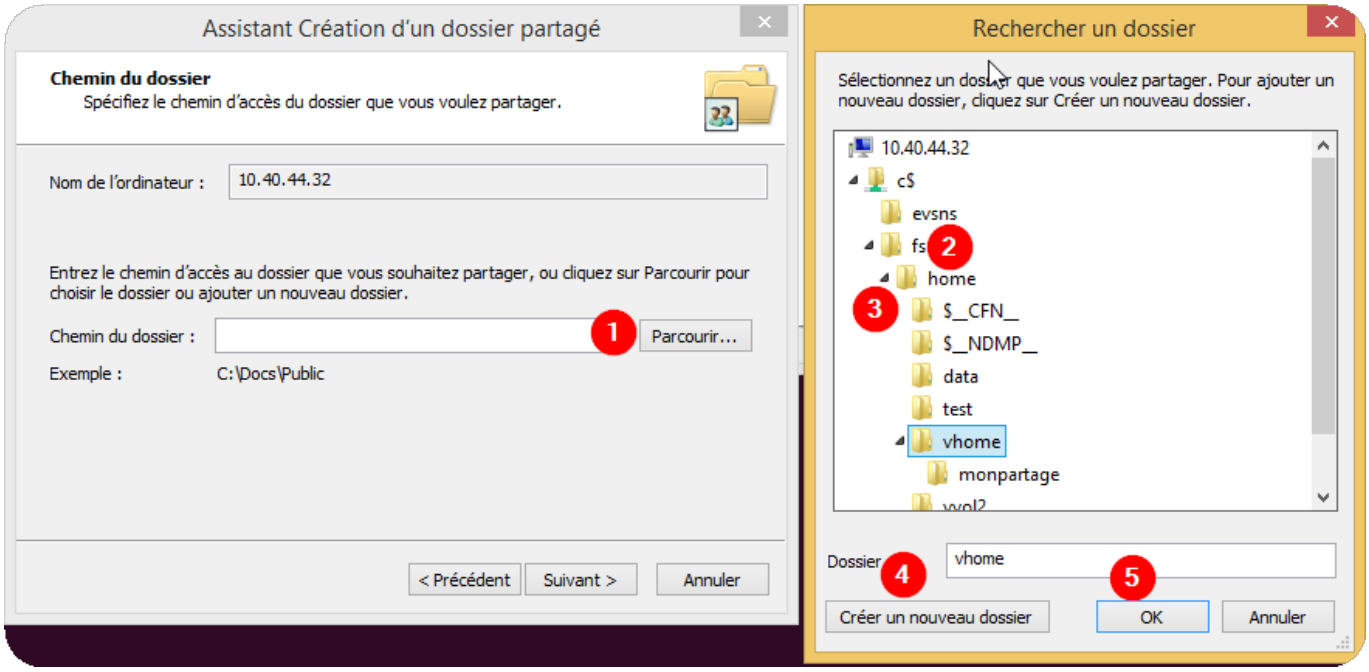

Saisie de l'adresse ip

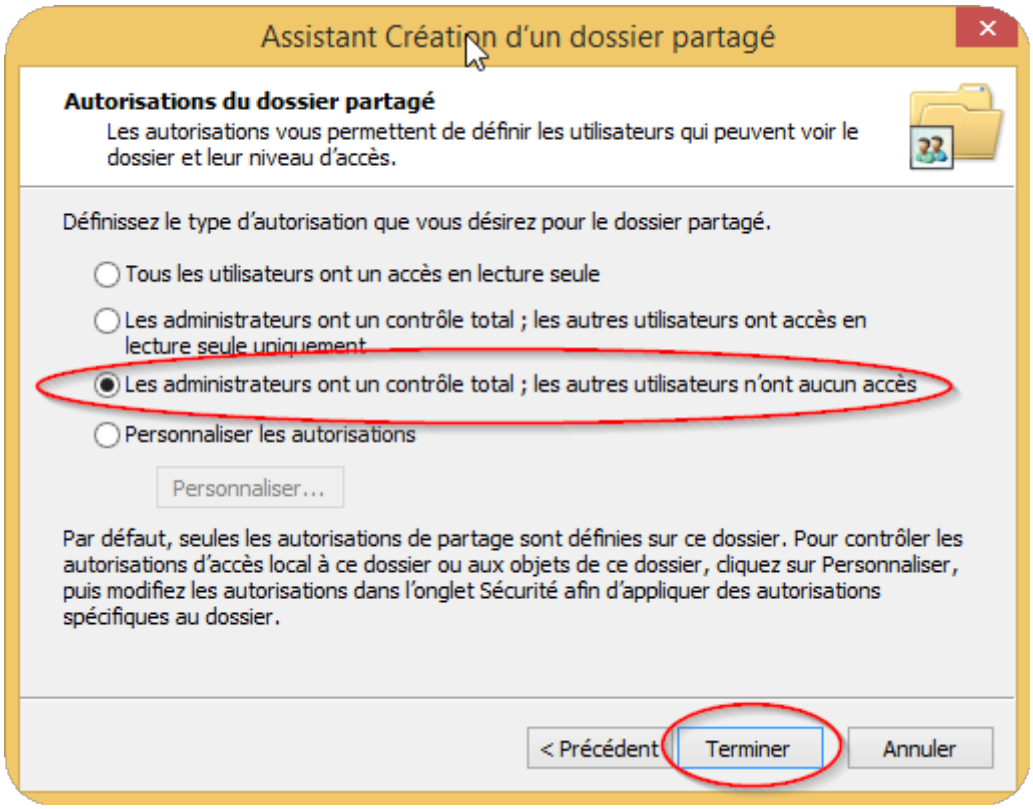

Affichage des partages

Création d'un partage

Attribution intial des droits. Les admnistrateurs peuvent tout faire, les autres rien.

SMU SSL certificate

Show the current certificate. Login to scinas.unige.ch using ssh type “q” to go to the shell su - to become root see the current certificate: `/usr/local/bin/cert-showall.sh`

Generate an ssl certificate for the SMU cert-gencustom.sh cert-gencsr.sh

`/etc/opt/mercury-papi/ssl/certreq.csr`
